Fineline Signs and Banners can make custom signs using your logo. Business cards may be acceptable. If you would like to add a message to your sign, please include exactly how you would like your banner to read.

For those who are able to provide artwork, there are two types of banner formats:

- Standard cut vinyl lettering on a banner background (letters, numbers and shapes are cut with computer-generated vector lines). Please provide a vector file. If generated by Adobe Illustrator, please provide an .ai or .eps format. If by Corel, the file should be exported as an .eps so it can be opened in Illustrator. Please convert fonts to outlines before sending the art.
- Digital photographic printing (the imagination is the limit) Please provide a .jpg, .tif, .psd, that is 100 dpi at full size.

Send artwork to Bernie Bernstein at the above address, or directly to Fineline Signs and Banners at [neil@finelinesigns.com](mailto:neil@finelinesigns.com) or 580 E. Arrow Highway, San Dimas, CA 91773. For questions about artwork, call Neil Britt at (909) 592-3660.

Proofs will be sent to you via e-mail or you can go by Fineline to approve the design. Banners will be produced with signed proofs only. No verbal confirmations accepted.
